

OUR NEW ACUTE CARE CLINIC

The KTHC Acute Care Clinic is a service extended to established KTHC patients — ages 0-99+ — to treat simple, non-life-threatening illnesses and injuries that need immediate attention and cannot wait for an appointment with a primary care physician.

This is not for chronic conditions such as diabetes. Patients seeking routine care for chronic conditions will be referred to their primary care physician.

KTHC Acute Care Clinic is by appointment only. You will need to call (405) 964-2081 to schedule your appointment.

Our mission is to provide access to quality healthcare to the Native Americans living in our tribal community. In partnership, we will help each person achieve their best physical, mental, social, and spiritual health; thereby, increasing longevity and wellness.
